

Issue: Title Element Too Long (> 70 Characters)

for www.ivc19.com

The visible portion of the title tag in the search results extends to 70 characters, after which it is truncated by the engines or replaced with other text from the page. We recommend that you keep your title to this length to ensure that customers see your full title and to avoid replacement text that may not provide the same incentive to click as a custom-written tag.

Title Element Too Long (> 70 Characters)

Feb 08
